

Professional Series Portable Firmware R05.10.05 Customer Release Notes

This release of radio firmware only supports the Prime family of Professional Series Portable Radios. All bands in this family are supported. For any questions, please contact Customer Resources at 1-800-927-2744.

I. Enhancements

None

II. Corrections

Item #1: **Audio volume reduced in landed priority scan**

This problem is only observed when the Audio Processing Filter (APF) is enabled. When the radio is in priority scan and landed on a non-priority channel, then the audio volume is reduced compared to what is observed when not scanning. This problem is corrected with this firmware version.

III. Known issues

None
